

MC Global Growth Equity Fund

"Sub-Fund of the SICAV governed by Belgian law Merit Capital Global Investment Fund"

The sub-fund's objective is to achieve capital growth over a recommended minimum investment period of 7 years.

In order to achieve the fund's objective, the fund pursues an investment strategy consisting of building up a globally diversified equity portfolio.

The fund focuses on companies with a growth focus that are market leaders in their segment. The selection is based on a combination of fundamental and technical analysis. These are shares with small, medium and large capitalisations.

Benchmark

The benchmark for this fund is the Morningstar Global Markets index (expressed in Euro). This index is only used for the calculation of the performance fee and not for the composition of the portfolio.

Risk and reward profile

This risk and reward indicator reflects the historical volatility of the fund over a period of 5 years. Historical data used to calculate the above indicator may not be a reliable indicator of the fund's future risk profile. The lowest category (category 1) does not mean that the investment is risk-free. It is always the case that the price of shares can rise or fall. There is no guarantee that the risk and reward categories will remain unchanged. The layout may vary over time. The fund belongs to category 5 because its value is subject to relatively large fluctuations. This means that the chance of profit and the risk of loss can be high. The following risk may not be (sufficiently) reflected by the above indicator:

*Foreign exchange risk: a significant portion of the fund may be invested in equities denominated in another currency. As these currencies are in principle not hedged, there is an exchange rate risk. For a complete overview of the risks and costs of this fund, please refer to the prospectus and the key investor information, which are available on the website and free of charge at our offices.

Existence

This sub-fund is of unlimited duration.

Costs (Class R)

You pay these costs to cover the day-to-day operation of the fund, including marketing and distribution costs. These costs limit the growth potential of your investment.

One-off costs that are charged before or after your investment.

Entry fee 1.00%

Withdrawal charge 0.00%

A stock exchange tax is charged on exit: it amounts to 1.32% for capitalisation shares with a maximum of EUR 4,000. For distribution shares, this is 0.00%.

Modification of sub-fund 1.00%

This is the maximum amount that could be deducted from your money before it is invested. Charges taken from the fund over a period of one year.

Management costs 1.50%

Ongoing charges 1.95%

Charges taken from the fund under certain specific conditions.

Performance fee 10.00% per annum of the outperformance against the Morningstar Global Markets index (expressed in Euro). No performance fee was charged to the fund in the last year.

The mentioned entry and exit charges are maximums. In some cases you will pay less, you can check this with your financial advisor. As the fund does not yet have a full year in existence, the ongoing charges have been based on the cost statement as shown in the prospectus. This figure may vary from year to year. The percentage of running costs does not take into account: performance fees as well as portfolio transaction costs except in the case of entry and exit fees paid by the fund when purchasing shares of another collective investment undertaking. For more information on costs, including information on performance fees and how to calculate them, please refer to the prospectus.

withholding tax on dividends distributed by the distribution shares: 30%

Other taxation applicable to individuals resident in Belgium: Less than 10% of the assets of the Sub-Fund MC GLOBAL GROWTH EQUITY is invested in debt-claims as referred to in Article 19bis of the Income Tax Code 1992. When repurchasing his capitalization shares, the investor, as a natural person, in the framework of the normal management of his private assets, will not be subject to a 30% withholding tax on the part of the amount obtained from the **income (interest, capital losses and capital gains) originating from** debt claims as referred to in article 19bis of the Law92.
